EXECUTIVE PROFILE

Most organizations know what technology to buy. The failure is adoption. I diagnose why workforces resist new tools and design structured programs that turn that resistance into measurable behavior change. At TIAA, I operated as an internal strategic advisor across 16,000 associates, leading AI platform launches, mandatory workplace transformations, and enterprise learning initiatives from problem definition through measured outcomes. Earlier, at Pearson Performance Solutions, I consulted Fortune 500 clients and federal agencies directly on workforce technology strategy and enterprise platform deployment. My M.S. in Instructional Technology and cross-industry track record in financial services, government, and global enterprise make me ready to bring this discipline to external clients.

PROFESSIONAL EXPERIENCE

Director, Workplace Experience & Associate Engagement

February 2022 - Present

TIAA (Fortune 100 Financial Services, $1.6T AUM)

Business Manager (2016-2022) | Senior Business Management Specialist (2013-2016) | Business Consultant (2011-2013)

Internal strategic advisor to Client Services leadership across 16,000 associates in a Fortune 100, highly regulated environment. Accountable for AI adoption, enterprise platform deployment, workforce transformation, and learning programs from initial diagnosis through sustained behavior change.

Strategic Advisory & AI Adoption

- **CareerSpark AI Platform:** Identified gap: no enterprise career development platform existed. Conceived the solution, assembled a cross-functional team, and launched an AI-powered platform enterprise-wide. Drove 1,500+ active users by designing the adoption strategy alongside the product, measuring active usage, not just logins.
- **Skills of the Future Program (2024):** Identified a gap in workforce readiness for future skills and built the program from scratch. Led a team of 7 to develop 5 curriculum tracks with 12-17 modules each. Reached 890 unique users with 1,156 engagement interactions via Microsoft Viva Engage.
- **Mandatory Change Adoption (2023-2024):** Led change management for a mandatory workplace transition affecting 700 associates in a regulated environment. Reduced footprint 44% across 5 floors while maintaining trust and productivity. Primary liaison across IT, Facilities, HR, and Corporate Services.

Organizational Transformation & Stakeholder Management

- **Cultural Transformation (2019-2025):** Rebuilt recognition program from low adoption to 395% engagement growth (2020-2021). Client Services grew from 34% to 44% of all company-wide recognitions by 2023. Administered ~$500K annual budget.
- **Enterprise Workplace Rollouts:** Led transitions across Denver (700 associates), Frisco (500+ associates), and Charlotte. Built communication plans, change champion and ambassador networks, and feedback loops for each site.
- **Virtual Platform Innovation (2020):** Designed and launched a virtual engagement platform reaching 800+ associates when the pandemic eliminated in-person events, including regional staff previously excluded from major-office events.

Consultant & Product Leader

2000 - 2011

Pearson Performance Solutions / Vangent, Inc.

Leading global provider of enterprise human capital management technology. Served Fortune 500, global enterprise, and federal government clients.

- **Client Advisory:** Consulted Fortune 500 clients (Unilever, Bank of America, Verizon Wireless) on workforce technology strategy and enterprise platform implementation. Engagements spanned financial services, consumer goods, and telecommunications, requiring rapid domain immersion and executive stakeholder alignment across multi-year engagements with multiple business lines and geographies.
- **Product Roadmap Leadership:** Directed product roadmap for enterprise applicant tracking and learning content management platforms. Drove enhancements reducing client hiring costs 50-80% and improving speed-to-hire 50%+. Balanced competing client needs against platform scalability and long-term roadmap priorities.
- **Government-Scale Delivery:** Member of the sales team that secured enterprise ATS contract with the U.S. Department of Commerce (2010 Census hiring). Contributed to customization design and led delivery setup, coordinating across agency technical teams to go live on a hard Census deadline.
- **Sales Engineering:** Served as technical solution architect for enterprise and government prospects. Built custom demonstrations, translated complex platform capabilities into client-specific business outcomes, and supported competitive sales cycles across financial services, retail, and federal government verticals.
- **Stakeholder Navigation:** Managed competing priorities across executive sponsors, technical teams, HR leadership, and end users on every engagement. Built the alignment needed to deliver on time and on scope in environments where technology change was often unwelcome.
- **Implementation & Training:** Led LCMS implementations and delivered hands-on product training directly with client users across Fortune 500 engagements. Managed go-live coordination and user onboarding for HR and recruiting teams transitioning to new platform workflows.

CORE COMPETENCIES

Advisory & Strategy: AI Adoption Strategy | Organizational Diagnosis | Executive Advisory | Change Management | Structured Problem Solving | Stakeholder Alignment | Influence Without Authority | Cross-Functional Leadership | Strategic Roadmap Development

Transformation & Delivery: Enterprise Platform Deployment | AI Platform Launch | Learning & Development | Workforce Transformation | Mandatory Change | Cultural Transformation | Budget Management (~$500K) | Vendor & Contractor Management | Agile Development
