EXECUTIVE PROFILE

Most technology investments fail at adoption. I build and scale AI-powered platforms where the user experience is designed from day one, so deployment becomes growth, not resistance. At TIAA, I served as product owner for CareerSpark: an AI-powered career platform I conceived, built through agile development cycles, and deployed enterprise-wide across 16,000 associates, integrating it into the enterprise SaaS learning ecosystem and driving 1,500+ active users. Earlier career at Pearson Performance Solutions: product roadmap ownership for enterprise SaaS platforms, 50-80% client hiring cost reduction, and Fortune 500 global deployments.

PROFESSIONAL EXPERIENCE

Director, Workplace Experience & Associate Engagement

February 2022 - Present

TIAA (Fortune 100 Financial Services, $1.6T AUM)

Business Manager (2016-2022) | Senior Business Management Specialist (2013-2016) | Business Consultant (2011-2013)

Led enterprise technology adoption and platform deployment initiatives across 16,000+ associates. Partnered with IT, HR, Global Corporate Services, and external vendors to deliver AI platforms, digital learning ecosystems, and technology-enabled workplace transformations.

AI Platform Development & Adoption Engineering

- **Product Owner, CareerSpark AI Platform:** Conceived and led cross-functional team to design, build, and deploy an AI-powered career platform now serving as the primary career tool enterprise-wide. Managed full product lifecycle: requirements, contractor management, prompt engineering, UX design, agile development iterations, and integration into TIAA University's enterprise SaaS learning portal.
- **Drove adoption at scale:** Built multi-channel activation strategy (live sessions, town halls, coaching) reaching 1,500+ active users; measured active platform usage, not just access or login counts.
- **Digital Platform Innovation (2020):** Architected virtual event platform reaching 800+ associates across all locations, solving long-standing inequity in major-office-only events. Adoption model replicated by 3+ internal teams.
- **CareerSpark Manager Guide:** Identified the need and built it with Amazon Q in one week, compared to months using traditional development. Demonstrates hands-on AI fluency beyond adoption strategy.

Enterprise Digital Transformation & Platform Rollout

- **Digital Workspace Transformation, Denver (2023-2024):** Led technology-enabled transition of 700 associates to a flexible workspace platform (hoteling model), reducing footprint 44% across 5 floors. Served as primary liaison across IT, Facilities, HR, and Global Corporate Services.
- **Frisco Corporate Center (2024):** Led migration of 500+ associates to new 15-story facility; managed digital display infrastructure deployment during Lewisville office refresh.
- **Charlotte Campus (2022-2024):** Led return-to-office technology rollout: Welcome program (6 events) and campus restack for Charlotte associates.

Learning Technology & Capability Platform

- **Skills of the Future Platform (2024):** Conceived and built a digital learning platform focused on critical future skills for the Client Services organization. Led a team of 7 to develop 5 curriculum tracks with 12-17 modules each. Deployed via Microsoft Viva Engage and enterprise-wide communications. Reached 890 unique users, 1,156 platform views.
- **Recognition Technology Program (2019-2025):** Administered Client Services recognition platform with ~$500K annual budget. Drove 395% increase in platform engagement (2020-2021). Client Services accounted for 44% of all company-wide recognitions (2023), up from 34% (2021). Named Recognition Champion for TIAA.
- **Virtual Event Platforms (2020):** Designed, developed, and launched two platforms when the pandemic eliminated in-person events: virtual career fair reaching 800+ associates and enterprise-wide Product Expo enabling connection and visibility across all locations.

Product Leader & Enterprise Solutions Architect *2000 - 2011*

Pearson Performance Solutions / Vangent, Inc.

Leading global provider of enterprise SaaS talent and human capital management technology for Fortune 500 clients

- **Product Roadmap Ownership:** Directed product roadmap for enterprise applicant tracking system (ATS) and learning content management system (LCMS); drove platform enhancements reducing client hiring costs 50-80% and improving speed-to-hire 50%+
- **Enterprise SaaS Deployment:** Led design and deployment of enterprise LCMS and talent acquisition platforms for Fortune 500 clients including Unilever, Bank of America, and Verizon Wireless; delivered custom integrations and global rollouts across multiple business lines
- **Sales Engineering:** Served as technical sales architect supporting SaaS platform sales to enterprise and government clients, including Department of Commerce (2010 Census hiring) and Extra Space Storage; translated complex platform capabilities into client-specific solutions
- **Strategic Consulting:** Consulted with enterprise clients across industries on workforce technology strategy, platform implementation, and adoption; managed cross-functional teams through complex multi-year SaaS engagements

TECHNICAL CAPABILITIES

Platform & AI: AI Platform Development & Deployment | Prompt Engineering | Product Lifecycle Management | Agile Development | SaaS Platform Adoption | Enterprise Software Integration | LMS / LCMS Architecture | UX Design & User Adoption

Microsoft Ecosystem: Microsoft 365 | Microsoft Copilot | Teams | SharePoint | Viva Engage | Power Apps | Digital Workplace Technology

Strategic Leadership: Enterprise AI Adoption Strategy | Organizational Change Management | Digital Transformation | Stakeholder Management | Cross-Functional Team Leadership | Executive Communication | Data-Driven Decision Making | Budget Management (~$500K) | Vendor & Contractor Management
