EXECUTIVE PROFILE

AI investments only deliver value when work itself is redesigned around them. I lead enterprise transformation initiatives that embed AI into core operations and prove measurable outcomes, not just AI usage. At TIAA (Fortune 100, $1.6T AUM), I conceived and launched CareerSpark, an AI-powered career platform serving 16,000+ associates, establishing baselines, tracking adoption KPIs, and partnering with HR to redefine how associates navigate career development. I've led workplace transformations affecting 700+ associates (44% footprint reduction), built reskilling programs, and driven 395% increases in engagement through human-centered change that sticks.

PROFESSIONAL EXPERIENCE

Director, Workplace Experience & Associate Engagement

February 2022 - Present

TIAA (Fortune 100 Financial Services, $1.6T AUM)

Business Manager (2016-2022) | Senior Business Management Specialist (2013-2016) | Business Consultant (2011-2013)

Led enterprise initiatives impacting 16,000+ associates across Client Services (~3,000 associates). Administered recognition program (~$500K budget). Partnered with HR, Global Corporate Services, Workplace Services, Facilities, and IT to deliver complex transformations.

AI Transformation & Value Realization

- **AI-First Process Redesign:** Conceived and led CareerSpark from concept to enterprise deployment, redesigning how 16,000+ associates approach career development. Tracked adoption and usage metrics, measured employee experience and feedback to demonstrate value, not just access.
- **AI Adoption & Change Enablement:** Built multi-channel strategy reaching 1,500+ associates through town halls, team sessions, and coaching. Secured AI leadership signoff on platform design while orchestrating development independently. Partnered with learning and communications teams to drive sustained adoption.
- **Responsible AI & Governance:** Partnered with Risk & Compliance and Legal to define guardrails before launch. No associate data stored on servers, no AI-initiated actions. Built guided prompt frameworks that keep humans in control.
- **AI-Enabled Productivity:** Built the CareerSpark Manager Guide using Amazon Q in one week (vs. months traditionally), demonstrating where human-machine collaboration creates the most impact.

Enterprise Transformation & Operating Model Redesign

- **Denver Consolidation (2023-2024):** Led end-to-end workplace transformation for 700 associates, redesigning the operating model from traditional seating to hoteling. Reduced footprint by 44% (5 floors vacated). Conducted readiness and impact analysis across 5 partner organizations.
- **Frisco Corporate Center (2024):** Led transition for 500+ associates to new 15-story corporate center, managing planning, communication, and move execution.
- **Charlotte Campus (2022-2024):** Led return-to-office workplace experience: Welcome program (6 tour events) and campus restack.

Reskilling Strategy & Capability Development

- **Skills of the Future Program (2024):** Identified capability gaps and built reskilling platform defining skills needed for an AI-augmented workforce. Led team of 7 to develop 5 curriculum tracks (12-17 modules each), reaching 890 unique users across Client Services.
- **Recognition & Culture Measurement (2019-2025):** Administered ~$500K annual R&R program, drove 395% increase in recognitions. Partnered with leadership to analyze Culture Survey results, identify focus areas, and re-evaluate after each cycle to measure improvement over time. Client Services: 44% of all company-wide recognitions (2023). Named Recognition Champion.
- **Virtual Platform Innovation (2020):** Redesigned career fair delivery when COVID eliminated in-person events, solving equity gap where only major offices had access. Reached 800+ associates across all locations, adoption model replicated by 3+ teams enterprise-wide.

Product Leadership & Enterprise Solutions Consultant *2000 - 2011*

Pearson Performance Solutions / Vangent, Inc.

Management consulting and enterprise technology solutions for Fortune 500 clients across multiple industries

- **Cross-Industry Transformation Consulting:** Consulted with enterprise clients across financial services, telecom, retail, and government on workforce readiness, process redesign, and technology implementation. Led cross-functional teams through multi-year engagements.
- **Process Redesign & Measurable Outcomes:** Directed enhancements to automated recruiting solutions reducing client hiring costs 50-80% and speed-to-hire 50%+. Applied instructional design methodology to validate assessments, analyze pass/fail rates, and measure knowledge transfer effectiveness across learning programs.
- **Enterprise Platform Design:** Led design and deployment of LCMS and talent acquisition platforms for Fortune 500 clients (Unilever, Bank of America, Verizon Wireless) globally.
- **Stakeholder Management:** Served as technical expert translating platform capabilities into client-specific solutions for enterprise and government clients, including Department of Commerce (2010 Census).

LEADERSHIP CAPABILITIES

AI Transformation: AI-First Process Redesign | Value Realization & KPI Development | Human-Machine Collaboration | Responsible AI Governance | Change Enablement & Adoption | Workforce Capability Planning | Reskilling Strategy

Strategic Leadership: Organizational Change Management | Cross-Functional Alignment | Executive Stakeholder Management | Budget Management (~$500K) | Program Design & Delivery | Data-Driven Decision Making
