EXECUTIVE PROFILE

Transformation delivers value when strategy, AI, and process redesign converge into measurable business outcomes. I lead enterprise initiatives that translate strategic priorities into product strategies, build roadmaps, and drive execution through cross-functional collaboration and influence. At TIAA (Fortune 100, $1.6T AUM), I conceived and launched CareerSpark, an AI-powered career platform serving 16,000+ associates, owning the full product lifecycle: strategy, responsible AI governance, stakeholder alignment, and enterprise-wide adoption. I've led workplace transformations affecting 700+ associates (44% footprint reduction) and driven 395% increases in engagement.
