EXECUTIVE PROFILE

AI initiatives fail when organizations treat them as technology projects instead of transformation programs. I design and lead enterprise AI implementations where discovery, governance, adoption, and measurement are built into the methodology from day one, so change scales and sustains. At TIAA (Fortune 100, \$1.6T AUM), I conceived and launched CareerSpark, an AI-powered platform serving 16,000+ associates, owning the full lifecycle: discovery, solution design, responsible AI governance, stakeholder alignment, multi-channel adoption, and outcome measurement. Earlier, I spent 11 years in management consulting delivering enterprise technology solutions to Fortune 500 clients globally. I build repeatable systems, not one-off projects.

PROFESSIONAL EXPERIENCE

Director, Business Management

February 2022 - Present

TIAA (Fortune 100 Financial Services, \$1.6T AUM)

Business Manager (2016-2022) | Senior Business Management Specialist (2013-2016) | Business Consultant (2011-2013)

Led enterprise initiatives impacting 16,000+ associates across Client Services (~3,000 associates). Administered recognition program (~\$500K budget). Partnered with HR, Global Corporate Services, Workplace Services, Facilities, and IT to deliver complex transformations.

AI Implementation & Scalable Process Design

- **End-to-End AI Solution Delivery:** Conceived and led CareerSpark from discovery through sustained adoption: identified the business problem (fragmented career development with no scale), designed the AI-enabled solution, built the implementation roadmap, and led enterprise-wide rollout serving 16,000+ associates. Owned discovery, solution architecture, prompt engineering, stakeholder alignment, and outcome measurement.
- **Repeatable Frameworks & Methodology:** Built multi-channel adoption strategy reaching 1,500+ associates through town halls, team sessions, and coaching. Created enablement materials (user guides, manager playbooks, FAQs) that empowered teams to operate AI tools independently. Measured active usage and employee experience to demonstrate business value, not just deployment.
- **Responsible AI Governance:** Partnered with Risk & Compliance and Legal to define guardrails before launch. No associate data stored on servers, no AI-initiated actions. Built guided prompt frameworks ensuring responsible, human-centered deployment in a regulated financial services environment.
- **AI-Enabled Operational Efficiency:** Built the CareerSpark Manager Guide using Amazon Q in one week (vs. months traditionally), demonstrating where AI creates the most leverage on speed-to-market. Practical fluency across build, buy, and blend decisions for AI solutions.

Organizational Rollouts & Change Management

- **Multi-Site Workplace Transformation (2023-2024):** Led end-to-end transformations for 1,200+ associates across Denver (700 associates, 44% footprint reduction, 5 floors vacated) and Frisco (500+ associates, new corporate center). Managed stakeholder alignment and rollout sequencing across 5 partner organizations.

Capability Development & Measurable Outcomes

- **Skills of the Future (2024):** Identified capability gaps and built development platform for a transforming workforce. Led team of 7 to develop 5 curriculum tracks (12-17 modules each), reaching 890 unique users.
- **Recognition & Culture Measurement (2019-2025):** Administered ~\$500K annual R&R program, drove 395% increase in recognitions. Established baselines, tracked metrics each cycle, and reported to leadership demonstrating measurable ROI.
- **Virtual Platform Innovation (2020):** Redesigned career fair delivery when COVID eliminated in-person events, solving equity gap where only major offices had access. Reached 800+ associates, model replicated by 3+ teams enterprise-wide.

Product Leadership & Enterprise Solutions Consultant

2000 - 2011

Pearson Performance Solutions / Vangent, Inc.

Management consulting and enterprise technology solutions for Fortune 500 clients across multiple industries

- **Client-Facing Solution Delivery:** Led design and deployment of enterprise LCMS and talent acquisition platforms for Fortune 500 clients (Unilever, Bank of America, Verizon Wireless) globally. Translated complex platform capabilities into client-specific solutions, managing discovery, scoping, timelines, and acceptance criteria.
- **Repeatable Systems & Process Design:** Managed product roadmap for enterprise platforms serving multiple business lines, balancing immediate client needs with long-term scalability. Directed enhancements to automated recruiting solutions reducing client hiring costs 50-80% and speed-to-hire 50%+.
- **Cross-Industry Transformation:** Consulted with enterprise and government clients (including Department of Commerce, 2010 Census) across financial services, telecom, retail, and government on workforce readiness, process redesign, and technology implementation.

LEADERSHIP CAPABILITIES

AI Transformation & Strategy: AI Implementation Methodology | Discovery & Solution Design | Prompt Engineering & Playbook Development | Responsible AI Governance | AI Adoption Strategy | Change Management | Organizational Rollouts | Stakeholder Alignment

Operational Excellence: Budget Management (~\$500K) | Program Design & Delivery | Multi-Workstream Project Management | Performance Metrics & Analytics | Data-Driven Decision Making | SOW & Scope Management | Executive Communications

Technical Expertise: Generative AI (Claude, Amazon Q, Prompt Engineering) | Agentic AI & Autonomous Workflows | No/Low-Code Automation | Knowledge Management Systems | Learning Management Systems | Digital Transformation | Independent AI Projects (Future Me, Answered: agentic career decision platform built with Claude, Next.js, Vercel AI SDK; joepointer.com: AI-powered interactive portfolio)

EDUCATION, CERTIFICATIONS & RECOGNITION

Master of Science, Instructional Technology - Bloomsburg University of Pennsylvania

Bachelor of Arts, Art (Commercial Art) - Millersville University of Pennsylvania

Certifications: Google Generative AI for Leaders | Lean for Financial Services, TIAA (inaugural graduating class)

Awards: "Face of TIAA" Values VIP (2025, top 4 company-wide) | Values Champion (2022, 2025) | Change Champion (2025) | Denver Leadership Council
