EXECUTIVE PROFILE

I build the learning that takes people from basic AI tool use to building their own agents, automations, and multi-step workflows. My M.S. in Instructional Technology grounds this in how people actually learn and change, not in content production. At TIAA I conceived and built an AI-powered career capability platform now available to 16,000+ associates, and I lead the associate-transformation workstream of the Recordkeeping Transformation program while peer teams lead technology and process. On my own time I designed and shipped Future Me, Answered (a live AI platform) and TheHotSeat (a 4-agent interview simulator), proof of the same progression I help others make. After 15 years at TIAA I am moving fully into named AI enablement work, available July 2026.

PROFESSIONAL EXPERIENCE

Director, Business Management

February 2022 - Present

TIAA (Fortune 100, \$1.6T AUM | 16,000 Associates)

Business Manager (2016-2022) | Sr. Business Mgmt Specialist (2013-2016) | Business Consultant (2011-2013)

Lead the associate-transformation workstream of TIAA's Recordkeeping Transformation program while peer teams lead technology and process. Partner across HR, L&D, Risk, Compliance, and IT, and build and run the enablement programs personally.

AI Fluency Building & Enablement

- **AI Career Capability Platform (2024-2025):** Conceived, designed, and built a 9-module AI capability platform now available to 16,000+ associates. Structured the learning as a progression ("Do it, See it, Improve it, Deepen it, Share it") that moves people from first use to confident, independent practice, with built-in AI tools and a Manager Guide. Drove adoption through 30+ town halls and team sessions reaching 1,500+ associates directly.
- **Built and Taught the Sessions Myself:** Designed and delivered the workshops in the room, translating generative AI and agentic workflows into language non-technical people and executives can act on, built so people leave able to do the work themselves.
- **AI-Accelerated Build Model:** Built the platform's Manager Guide on Amazon Q in one week instead of the usual multi-week effort, then taught other teams the workflow.
- **Skills of the Future Program (2024):** Led a team of 7 to build an enterprise upskilling platform for AI literacy and critical future skills. Developed 5 curriculum tracks (12-17 modules each). 890 unique users, 1,156 engagement interactions.

Process Redesign & Change Management

- **Workforce Transitions at Scale (2022-2024):** Led change strategy for 3,000+ associates through return-to-office, the Denver consolidation, and the Frisco corporate center opening. Built change champion networks that turned top-down mandates into two-way conversations. No retention crisis through multiple unwanted transitions. Recognized as "Change Champion."
- **Process Discovery & Redesign:** Audited manual, high-friction workflows across Client Services and redesigned them end to end before automating. Built TIAA's first virtual associate event (a Virtual Career Fair for 3,000+ Client Services associates) during COVID, then adapted it into a recurring Virtual Product Expo.
- **Recognition Strategy Transformation (2019-2025):** Reframed underused recognition as a process problem and grew participation 395% on a \$500K budget. Earned a seat on the corporate team selecting the new platform.

Product Leader & Enterprise Solutions Architect

Pearson Performance Solutions / Vangent, Inc.

2000 - 2011

Global provider of human capital management and enterprise technology for Fortune 500 and government clients

- **Performance Consulting for Fortune 500 Clients:** Consulted with clients including Unilever, Bank of America, Verizon Wireless, GE Capital, Royal Bank of Canada, and Regions Bank on workforce capability and performance ecosystems. Diagnosed organizational performance problems and architected multi-disciplinary solutions spanning process, technology, content, and skills.
- **Enterprise Learning Architecture (Revolver LCMS):** Designed a knowledge architecture that separated core content from contextual content, so a single source could publish as full lessons, field job aids, micro-learning, or expert reviews based on the performer's context. Single-source publishing two decades before it was common. Deployed across 5 Fortune 500 enterprises. Traveled internationally training enterprise teams.
- **L-Channel Satellite TV Training (Lucent):** Built broadcast courseware delivered to Lucent's global sales force, driving 80% reduction in training delivery costs. Also contributed to the enterprise multimedia standards team. Enterprise Networks Gold President's Award for Team Excellence.
- **Large-Scale Capability Programs:** Led enterprise platform deployment for Department of Commerce (2010 Census hiring) and Extra Space Storage. Drove client hiring cost reductions of 50-80% and speed-to-hire improvements of 50%+ by redesigning workflows, not just deploying technology.

INDEPENDENT AI BUILDS

- **Future Me, Answered (futuremeanswered.com):** Live AI career-discovery platform built on Next.js, the Vercel AI SDK, and multi-provider AI. I conceived the product, designed the 5-stage discovery framework, and modeled the career data across 922 occupations. Primary engineering by my brother. I direct the build; the vision, structure, and standard are mine.
- **TheHotSeat, AI Interview Simulator:** Designed and directed the build of a 4-agent interview-coaching pipeline (Claude) that analyzes a job description, generates role-specific questions, simulates panel dynamics across 8 presets, and returns a scored coaching report.

CORE COMPETENCIES

AI Enablement & Fluency: AI Fluency Programs | Workshops & Live Training | Agentic AI & Multi-Agent Workflows | Automation & Workflow Design | Generative AI / LLM Enablement | Responsible AI Practices (sandbox-first, governance before launch)

Change Management & Transformation: Enterprise Change Management | Workforce Transformation | Process Discovery & Redesign | Organizational Development | Influence Without Authority | Systems Thinking

HR & Talent Partnership: L&D | Talent Acquisition | People Business Partners | Total Rewards | People Operations | Manager Enablement | Adoption Strategy & Measurement

Learning & Capability Design: Instructional Design (M.S.) | Curriculum Architecture | Role-Anchored Learning Pathways | Multi-Modal Delivery | Translating Technical Concepts for Executives

Hands-On AI Toolset: ChatGPT, Claude, Gemini, Amazon Q, GitHub Copilot, Claude Code | Next.js, Vercel AI SDK

EDUCATION & RECOGNITION

Master of Science, Instructional Technology - Bloomsburg University of Pennsylvania

Bachelor of Arts, Art (Commercial Art) - Millersville University of Pennsylvania

Certifications: Google Generative AI for Leaders | Lean for Financial Services, TIAA (inaugural graduating class)

Awards: "Face of TIAA" Values VIP (2025, top 4 company-wide) | Values Champion (three-time: 2022, 2025, 2026) | Change Champion (2025) | Denver Leadership Council
