EXECUTIVE PROFILE

Most AI investments fail at adoption, not technology. I close that gap by leading enterprise AI programs where strategy, governance, and change management work together to deliver measurable business value. At TIAA (Fortune 100, \$1.6T AUM), I conceived and launched CareerSpark, an AI-powered platform serving 16,000+ associates, leading the full lifecycle: responsible AI guardrails, cross-functional coordination, stakeholder engagement, and hands-on delivery. My background combines AI platform development, enterprise change management, and a Master's in Instructional Technology.

PROFESSIONAL EXPERIENCE

Director, Business Management

February 2022 - Present

TIAA (Fortune 100 Financial Services, \$1.6T AUM)

Business Manager (2016-2022) | Senior Business Management Specialist (2013-2016) | Business Consultant (2011-2013)

Led enterprise technology adoption and transformation initiatives impacting 16,000+ associates across Client Services (~3,000 associates). Partnered with IT, HR, Global Corporate Services, Workplace Services, and Facilities to deliver complex cross-functional programs.

AI Strategy, Solution Delivery & Governance

- **AI Program Leadership:** Conceived, built, and deployed CareerSpark, an AI-powered career development platform now serving enterprise-wide. Managed full lifecycle: strategy, prompt engineering, UX design, responsible AI guardrails, and integration into TIAA University's learning portal.
- **Enterprise AI Adoption at Scale:** Built multi-channel adoption strategy for an AI workforce augmentation tool, reaching 1,500+ associates through town halls, team sessions, and coaching. Measured active usage, not just access. Partnered with learning and communications teams to drive AI readiness and literacy.
- **Responsible AI & Governance:** Partnered with Risk & Compliance and Legal to define what CareerSpark could and couldn't do before launch. No associate data stored on company servers, no AI-initiated actions. Built guided prompt frameworks that keep humans in control.
- **Hands-On Technical Delivery:** Built the CareerSpark Manager Guide using Amazon Q in one week (vs. months traditionally). Practical fluency with build, buy, and blend decisions for AI solutions.

Enterprise Change Management & Transformation

- **Denver Workplace Consolidation (2023-2024):** Led transition of 700 associates to hoteling model, reducing footprint 44% (5 floors vacated). Primary liaison across IT, Facilities, HR, and Global Corporate Services.

- **Frisco Corporate Center (2024):** Led planning, communications, and transition for 500+ associates to new 15-story facility; managed digital infrastructure deployment (12 digital displays) during Lewisville office refresh.
- **Charlotte Return-to-Office (2022-2024):** Led workplace experience strategy for campus restack and return-to-office program, including 6-event Welcome series for returning associates.

Culture, Adoption & Cross-Functional Leadership

- **Skills of the Future Program (2024):** Conceived and built a digital learning platform focused on critical future skills for Client Services. Led a team of 7 to develop 5 curriculum tracks (12-17 modules each). Deployed to SharePoint with engagement efforts using Viva Engage and enterprise communications. Reached 890 unique users and 1,156 community views.
- **Recognition Program (~\$500K Budget, 2019-2025):** Administered Client Services recognition platform, driving a 395% increase in recognitions (2020-2021). Client Services accounted for 44% of all company-wide recognitions (2023), up from 34% (2021). Named Recognition Champion for TIAA.
- **Virtual Platform Innovation (2020):** Designed and launched virtual career fair reaching 800+ associates across all locations when COVID eliminated in-person events, solving a long-standing equity gap where only major offices had access. Adoption model replicated by 3+ teams enterprise-wide.

Product Leader & Enterprise Solutions Architect Pearson Performance Solutions / Vangent, Inc.

2000 - 2011

Leading global provider of enterprise SaaS talent and human capital management technology for Fortune 500 clients

- **Product Roadmap Ownership:** Directed product roadmap for enterprise ATS and LCMS platforms, driving enhancements that reduced client hiring costs 50-80% and improved speed-to-hire 50%+
- **Enterprise Solution Delivery:** Led design and deployment of enterprise LCMS and talent acquisition platforms for Fortune 500 clients including Unilever, Bank of America, and Verizon Wireless; delivered custom integrations and global rollouts across multiple business lines
- **Technical Sales & Stakeholder Engagement:** Technical sales architect for enterprise and government clients including Department of Commerce (2010 Census), translating platform capabilities into client-specific solutions
