## EXECUTIVE PROFILE

At TIAA (Fortune 100, \$1.6T AUM), I conceived and launched an AI-powered career platform for 16,000+ associates, built an enterprise upskilling program (5 curriculum tracks, 890 users), and led workforce transitions for 3,000+ associates with zero retention crisis. I also build AI independently: an agentic career coaching platform using Claude, Next.js, and Vercel AI SDK. My M.S. in Instructional Technology, hands-on AI building experience, and 15 years partnering with HR, IT, and senior leadership position me to lead AI transformation for GitHub's People Team.
