EXECUTIVE PROFILE

I build and lead the teams that get people to actually use new tools, a part most rollouts skip. Adoption is my craft, turning a launch into how people really work, especially with skeptical experts who won't change just because something shipped. At TIAA I led a team to conceive and build an AI-powered career development platform now available to 16,000+ associates, and I owned the enablement and behavior change behind it. My M.S. in Instructional Technology grounds this in how people learn, and on my own time I design and build a portfolio of AI products, so my technical fluency comes from building, not a degree. My audiences have been corporate, not a field salesforce, but the discipline carries. After 15 years at TIAA, I am moving fully into AI adoption and enablement, available July 2026.

PROFESSIONAL EXPERIENCE

Director, Business Management

February 2022 - Present

TIAA (Fortune 100, \$1.6T AUM | 16,000 Associates)

Business Manager (2016-2022) | Sr. Business Mgmt Specialist (2013-2016) | Business Consultant (2011-2013)

Lead the associate-transformation workstream of TIAA's Recordkeeping Transformation program while peer teams lead technology and process. Build and lead the enablement teams and teach in the room.

Enablement & Adoption at Scale

- **Made AI Tools Stick (2024-2025):** Led a team to conceive, design, and build a 9-module AI-powered career development platform, first for the Recordkeeping Transformation population and then launched company-wide to 16,000+ associates. Validated the high-impact use cases with executive and functional leaders, then built role-based learning, prompt libraries, one-on-one coaching, and a Manager Guide that took people from first use to independent practice. Drove hands-on adoption through 30+ town halls and team sessions reaching 1,500+ associates directly.
- **Built and Led a Team of 7 to Deliver Role-Based Upskilling:** Built Skills of the Future (2024), an upskilling program for AI literacy and critical future skills for the associates impacted by the Recordkeeping Transformation. Led a team of 7 to develop 5 curriculum tracks (12-17 modules each). 890 users and 1,156 engagement interactions.
- **Tracked Adoption and Readiness Signals:** Defined success up front and tracked usage, completion, and friction points, feeding each lesson into the next session. Ran AI pilots and phased rollouts from concept to implementation, and built the playbooks and best practices that let teams repeat the work.

People Leadership & Sustained Behavior Change

- **Built Change Champion Networks Across 3,000+ Associates (2022-2024):** Led change strategy through return-to-office, the Denver consolidation, and the Frisco corporate center opening. Built and developed change champion networks that gave the work credibility on the ground and turned top-down mandates into two-way conversations. No retention crisis through multiple unwanted transitions. Recognized as "Change Champion."
- **Translated Generative AI and Agentic Workflows for Non-Technical People:** Coached my team and individuals across the organization on generative AI and agentic development, translating both into language non-technical people can act on, so they leave able to do the work and trust the tool.
- **Cross-Functional Partnership and Guardrails:** Partnered with Finance, Risk, Compliance, and IT to govern and scale enterprise programs, and grew recognition participation 395% on a \$500K budget.

Product Leader & Enterprise Solutions Architect Pearson Performance Solutions / Vangent, Inc.

2000 - 2011

Global provider of human capital management and enterprise technology for Fortune 500 and government clients

- **Performance Consulting for Fortune 500 Clients:** Consulted with clients including Unilever, Bank of America, Verizon Wireless, GE Capital, Royal Bank of Canada, and Regions Bank on workforce capability and performance ecosystems. Diagnosed organizational performance problems and architected multi-disciplinary solutions spanning process, technology, content, and skills.
- **Enterprise Learning Architecture (Revolver LCMS):** Designed a knowledge architecture that separated core content from contextual content, so a single source could publish as full lessons, field job aids, micro-learning, or expert reviews based on the performer's context. Single-source publishing two decades before it was common. Deployed across 5 Fortune 500 enterprises. Traveled internationally training enterprise teams.
- **Large-Scale Capability Programs:** Led enterprise platform deployment for Department of Commerce (2010 Census hiring) and Extra Space Storage. Drove client hiring cost reductions of 50-80% and speed-to-hire improvements of 50%+ by redesigning workflows, not just deploying technology.

INDEPENDENT AI BUILDS

- **Future Me, Answered (futuremeansanswered.com):** Live AI career-discovery platform I built on Next.js, the Vercel AI SDK, and multi-provider AI. I conceived the product, designed the 5-stage discovery framework, and structured the career data across 922 occupations; my brother engineered the production backend.
- **TheHotSeat, AI Interview Simulator:** Designed and directed the build of a 4-agent interview-coaching pipeline (Claude) that analyzes a job description, generates role-specific questions, simulates panel dynamics across 8 presets, and returns a scored coaching report.

CORE COMPETENCIES

Enablement & Adoption: Role-Based Training & Learning Series | Hands-On & One-on-One Coaching | Sandbox / Practice-Before-Live Environments | Adoption & Readiness Signals (usage, completion, friction) | Feedback Loops | Sustained Behavior Change | Pilots & Phased Rollouts | Playbooks, Prompts & Best Practices

AI-Enabled Workflows: Generative AI / LLM Enablement | Agentic & Multi-Agent Workflows | Automation | Workflow Translation for Non-Technical Audiences | Responsible AI Practices (sandbox-first, governance before launch)

People Leadership: Building & Developing Teams | Change Champion Networks | Executive Readiness | Influence Without Authority | Cross-Functional Partnership (IT, Legal/Risk/Compliance, Finance, HR, L&D)

Learning & Capability Design: Instructional Design (M.S.) | Curriculum Architecture | Role-Anchored Learning Pathways | Multi-Modal Delivery | Translating Technical Concepts for Executives

Hands-On Digital Toolset: AI Assistants (including ChatGPT, Claude, Gemini, Microsoft Copilot) | AI Build Tools (including GitHub Copilot, Amazon Q, Kiro, Claude Code) | Directs full-stack builds on Next.js and the Vercel AI SDK

EDUCATION & RECOGNITION

Master of Science, Instructional Technology - Bloomsburg University of Pennsylvania

Bachelor of Arts, Art (Commercial Art) - Millersville University of Pennsylvania

Certifications: Google Generative AI for Leaders | Lean for Financial Services, TIAA (inaugural graduating class)

Awards: "Face of TIAA" Values VIP (2025, top 4 company-wide) | Values Champion (three-time: 2022, 2025, 2026) | Change Champion (2025) | Denver Leadership Council
