EXECUTIVE PROFILE

Performance problems are rarely solved by training alone. They require diagnosing the full ecosystem of process, tools, environment, and skills. My M.S. in Instructional Technology grounds my work in performance design, not content production. At TIAA, I sit on the Recordkeeping Transformation program team leading the associate-transformation workstream while peer teams lead technology and process transformation. I delivered CareerSpark (a 9-module AI-powered capability ecosystem for 16,000+ associates), Skills of the Future (5 curriculum tracks, 890 users), and workforce transitions for 3,000+ associates with zero retention crisis. Earlier, I spent a decade in management consulting architecting workforce capability systems for Fortune 500 clients. I shift L&D organizations from order-takers to value-creators, the exact transformation DaVita is seeking.

Strategic Performance & Capability Design

- **CareerSpark, Capability Ecosystem (2024-2025):** Diagnosed fragmented career development as a systemic performance problem, not a training gap. - **Skills of the Future Program (2024):** Built enterprise upskilling platform for AI literacy and critical future skills. Identified capability gaps proactively. Enterprise Change Management & Transformation Leadership

- **Workforce Transitions at Scale (2022-2024):** Led change strategy for 3,000+ associates across return-to-office, Denver consolidation, and Frisco HQ opening.
