PROFESSIONAL PROFILE

Adoption is personal before it is organizational. Someone adopts AI when they rethink how their own work could be done, not when they are handed a license. I measure whether that happened by active usage, not headcount with access. At TIAA I reported the 1,500+ associates I reached directly while 16,000+ had access, because the second number flatters and the first one is true.

PROFESSIONAL EXPERIENCE

Director, Business Management

May 2011 - July 2026

TIAA (Fortune 100 Financial Services)

Director since February 2022. Business Manager (2016-2022) | Sr. Management Specialist (2013-2016) | Business Consultant (2011-2013)

- **AI-Powered Career Development Platform:** Conceived, designed, and launched all nine modules, rolled out enterprise-wide. Full lifecycle ownership from discovery through governance, deployment, and adoption, plus the 30+ town halls and events I ran myself.
- **Operating Framework, Seven Business Areas:** Connected seven Client Services business areas through liaisons, peer learning, and shared strategy across Workplace, Engagement, and Recognition, while keeping each business moving at its own pace.
- **Workplace Modernization at Scale:** Led change strategy across six locations through the Denver consolidation (44% footprint reduction, 700+ to hoteling) and the Frisco Corporate Center opening for 500+.

Sales Engineer, Information Architect, Instructional Designer

January 2001 - March 2011

Interactive Media / FT Knowledge / Pearson Performance Solutions / Vangent Human Capital

Continuous tenure through a chain of acquisitions, serving Fortune 500 enterprises and federal agencies.

- Designed the knowledge architecture for Revolver, a Learning Content Management System that separated core content from contextual delivery. Deployed across 5 Fortune 500 enterprises.
- Sales engineer on the team that won enterprise ATS deals with the U.S. Department of Commerce (2010 Census) and Extra Space Storage. Surfaced field-driven enhancements that shipped into the product.

INDEPENDENT AI BUILDS, 2026 TO PRESENT

Future Me, Answered (futuremeansanswered.com): Live AI career-discovery platform. I conceived the product, designed the 5-stage discovery framework, and structured the 922-occupation O*NET dataset behind it.

CareerPointers (careerpointers.org): Live 11-module career platform with employer-personalized delivery, an applicant CRM, and TheHotSeat, a 4-agent Claude interview simulator. I conceived and directed it. Mike Pointer is co-founder on both and engineered the production backends.
