EXECUTIVE PROFILE

I work with executive and functional leaders to validate the AI use cases worth doing, then build the enablement that turns them into daily practice. Most of the people I enable are skeptical frontline associates with deep job expertise, not early adopters. At TIAA I conceived and built an AI career capability platform deployed across a 16,000-associate enterprise, driving hands-on adoption with 1,500+ associates through 30+ sessions, while leading the associate-transformation workstream of the Recordkeeping Transformation program as peer teams led technology and process. My M.S. in Instructional Technology grounds this in how people learn and change. On my own time I designed and shipped Future Me, Answered and TheHotSeat, the same progression I help others make. After 15 years at TIAA I am moving fully into AI enablement as my core work, available July 2026.

PROFESSIONAL EXPERIENCE

Director, Business Management

February 2022 - Present

TIAA (Fortune 100, \$1.6T AUM | 16,000 Associates)

Business Manager (2016-2022) | Sr. Business Mgmt Specialist (2013-2016) | Business Consultant (2011-2013)

Lead the associate-transformation workstream of TIAA's Recordkeeping Transformation program while peer teams lead technology and process. Partner across HR, L&D, Finance, Risk, Compliance, and IT, and build and run the enablement programs personally.

AI Use-Case Identification & Enablement

- **AI Career Capability Platform (2024-2025):** Conceived, designed, and built a 9-module AI capability platform now available to 16,000+ associates. Validated the high-impact use cases with executive and functional leaders, then structured the learning to take people from first use to independent practice, with built-in AI tools, prompts, and a Manager Guide I built on Amazon Q in a week. Drove adoption through 30+ town halls and team sessions reaching 1,500+ associates directly.
- **Rollouts, Playbooks, and Hands-On Coaching:** Ran AI pilots and phased rollouts from concept to implementation, then built the playbooks, prompt libraries, and best practices that let teams repeat the work. Coached leaders and teams directly, translating generative AI and agentic workflows into language non-technical people and executives can act on, built so people leave able to do the work themselves.
- **Adoption & Engagement Measurement:** Defined success metrics and tracked adoption and engagement, not just attendance. Built Skills of the Future (2024) with a team of 7, an enterprise upskilling platform for AI literacy with 5 curriculum tracks, 890 users, and 1,156 interactions.

Change Leadership & Process Redesign

- **Workforce Transitions at Scale (2022-2024):** Led change strategy for 3,000+ associates through return-to-office, the Denver consolidation, and the Frisco corporate center opening. Built change champion networks that made top-down mandates into two-way conversations. No retention crisis through multiple unwanted transitions. Recognized as "Change Champion."
- **Workflow Redesign Before Automation:** Audited manual, high-friction workflows across Client Services and redesigned them end to end before automating. Built TIAA's first virtual associate event (a Virtual Career Fair for 3,000+ Client Services associates) during COVID, then adapted it into a recurring Virtual Product Expo.
- **Cross-Functional Partnership:** Partnered with Finance, Risk, Compliance, and IT to govern and scale enterprise programs, and grew recognition participation 395% on a \$500K budget.

Product Leader & Enterprise Solutions Architect

2000 - 2011

Pearson Performance Solutions / Vangent, Inc.

Global provider of human capital management and enterprise technology for Fortune 500 and government clients

- **Performance Consulting for Fortune 500 Clients:** Consulted with clients including Unilever, Bank of America, Verizon Wireless, GE Capital, Royal Bank of Canada, and Regions Bank on workforce capability and performance ecosystems. Diagnosed organizational performance problems and architected multi-disciplinary solutions spanning process, technology, content, and skills.
- **Enterprise Learning Architecture (Revolver LCMS):** Designed a knowledge architecture that separated core content from contextual content, so a single source could publish as full lessons, field job aids, micro-learning, or expert reviews based on the performer's context. Single-source publishing two decades before it was common. Deployed across 5 Fortune 500 enterprises. Traveled internationally training enterprise teams.
- **Large-Scale Capability Programs:** Led enterprise platform deployment for Department of Commerce (2010 Census hiring) and Extra Space Storage. Drove client hiring cost reductions of 50-80% and speed-to-hire improvements of 50%+ by redesigning workflows, not just deploying technology.

INDEPENDENT AI BUILDS

- **Future Me, Answered (futuremeanswered.com):** Live AI career-discovery platform built on Next.js, the Vercel AI SDK, and multi-provider AI. I conceived the product, designed the 5-stage discovery framework, and modeled the career data across 922 occupations. Primary engineering by my brother. I direct the build; the vision, structure, and standard are mine.
- **TheHotSeat, AI Interview Simulator:** Designed and directed the build of a 4-agent interview-coaching pipeline (Claude) that analyzes a job description, generates role-specific questions, simulates panel dynamics across 8 presets, and returns a scored coaching report.

CORE COMPETENCIES

AI Enablement & Adoption: AI Use-Case Identification & Roadmapping | AI Pilots & Phased Rollouts | Prompts, Playbooks & Best Practices | Workshops & Hands-On Coaching | Agentic AI & Multi-Agent Workflows | Generative AI / LLM Enablement | Responsible AI Practices (sandbox-first, governance before launch)

Change Leadership & Transformation: Enterprise Change Management | Demystifying AI for Non-Technical Audiences | Executive Readiness | Workflow Redesign | Influence Without Authority | Systems Thinking

Cross-Functional Partnership: Executive & Functional Leaders | IT (Security, Data, Governance) | Legal / Risk / Compliance (Responsible AI) | Finance (Budget & ROI Communication) | HR, L&D, Talent | Adoption & Engagement Measurement

Learning & Capability Design: Instructional Design (M.S.) | Curriculum Architecture | Role-Anchored Learning Pathways | Multi-Modal Delivery | Translating Technical Concepts for Executives

Hands-On AI Toolset: ChatGPT, Claude, Gemini, Amazon Q, GitHub Copilot, Claude Code | Directs full-stack builds (Next.js, Vercel AI SDK)

EDUCATION & RECOGNITION

Master of Science, Instructional Technology - Bloomsburg University of Pennsylvania

Bachelor of Arts, Art (Commercial Art) - Millersville University of Pennsylvania

Certifications: Google Generative AI for Leaders | Lean for Financial Services, TIAA (inaugural graduating class)

Awards: "Face of TIAA" Values VIP (2025, top 4 company-wide) | Values Champion (three-time: 2022, 2025, 2026) | Change Champion (2025) | Denver Leadership Council
